NICE INCINERATORS

NICE30

- Up to 600 l of load capacity
- 30-40 kg/h of average destructive capacity
- 235 kW of total power

NICE INCINERATORS - BENEFITS

EASY TO INSTALL AND USE

Our incinerator comes in only 2 pieces: oven and chimney. All you need to do is connect fuel and electricity. Once the waste is loaded, the cycle is completely automatic.

LOW MAINTENANCE

Don't worry about maintenance: everything just works

FUEL TYPES

Our NICE incinerator can be equipped with natural gas, diesel or LPG burners

TREATMENT SYSTEM

Our incinerators are equipped, upon request, with a complete fumes treatment system

WHAT CAN IT DISPOSE OF?

With our NICE incinerators you can safely dispose of any kind of waste such as:

- Infectious waste, contaminated with blood and body fluids
- Bacteria and infectious agents from laboratories
- Human tissues, organs and fluids
- Carcasses of contaminated animals
- Syringes, scalpels, needles and disposable blades
- Carcinogenic drugs
- Chemical products
- Radioactive waste
- Liquid waste (blood, disinfectant liquids)
- Masks and personal protective gloves
- Non-hazardous waste of any kind and type

Complete disposal of
germs and infectious
substances
